Dr. J. E. Schlottman has just returned from San Antonio where he attended the 38th annual meeting of the Texas Dental Society which met there this week, and reports the most enthusiastic and instructive meeting they have ever had. Free clinic and research work was of especial interest.

The Parent-Teachers' Association held its monthly meeting at the High School building Monday afternoon. After disposing of the business of the meeting, the annual election of officers for the ensuing year was held and resulted as follows: President, Mrs. E. S. Cockrell; 1st Vice-President, Mrs. S. G. Carter; 2nd Vice-President, Mrs. H. J. Meyer; 3rd Vice-President, Mrs. H. G. Henderson; Secretary, Mr. R. J. Noonan; Treasurer, Mrs. J. A. Horger.

The Passing of a Pioneer.

The Anvil Herald last week contained but a brief mention of the death of Mr. HENRY ROTHE, aged 77 years, 11 months and 2 days, which occurred in a hospital in San Antonio Monday afternoon, April 1st, 1918.

Decedent was born at Warmen Steinach, near the city of Bayreuth, in the district Oberfranken, kingdom of Bavaria, Germany, and at the age of about 14 years, in company of his parents, set out from the old home for the New World where opportunity for gaining a competency was greater than in the land of his birth, landing in Medina County in 1854, hence he had been a resident of Medina County for more than half a century.

The Rothe family came by ox team from Indianola, the port of disembarking, to the Medina river above Castroville, where the first home was located and where 14 days after reaching their destination the mother was laid to rest on the bank of the river, her death probably being due to the hardships incident to life on the frontier. In those days the Rothe family, like most of the immigrants, was extremely poor, and the subject of the sketch, with the other male members of the family, went industriously to work to provide themselves with the meager comforts incident to life in a wild, unsettled country.

Mr. Rothe, however, with greater foresight than many others of the early settlers, saw the opportunities offered by the country and began in early life laying the foundation for the large ranch business, that led to the competency he enjoyed in the latter days of his life. For many years he was associated with his brother. In 1896 the firm was dissolved, since which time decedent has successfully conducted one of the greatest ranches in West Texas.

During the unhappy strife that rent the country in the 60's, Mr. Rothe espoused the cause of the South and saw service in Capt. Kampman's Company, Kingman's regiment, and like all of his undertakings, he did his duty faithfully and well. On returning from the war he went to Mexico and for a short period was engaged in business in Musquiz, Coahuila. This was the only break in his long residence—about 64 years—in Medina County.

Mr. Rothe was a man of indomitable energy, and besides his large ranch interests was at one time the leading merchant of Hondo, disposing of the business in 1900. He was also a director of the Hondo State Bank from its organization, and for a number of years served as president of the bank, retiring some three years ago on account of the pressure of his private business.

On June 31, 1874, he was married to Miss Anna Reinhart, who, besides six sons and five daughters, survive him. The children are: Louis F. Rothe of Hondo, Mrs. Hattie Dullnig of Asherton, Mrs. Annie Herweck of San Antonio, Arnold A. Rothe of Hondo, Lieutenant J. Roland Rothe of Kelly Field, San Antonio, Dr. H. H. Rothe of Moultrie, Georgia, Mrs. Helen Miller of Hondo, Lieutenant Hans H. Rothe of Fort Bliss, Texas, Miss Joanna, Elmer and Miss Ruth, all of Hondo.

The achievements of Mr. Rothe should be an incentive to the young men of today, who without pecuniary prestige have to face the battles of life. He began life in abject poverty but by strict attention to business he succeeded in amassing a snug fortune and no one ever accused him of gaining a dollar that was not justly his. But perhaps his family and friends are more proud of the spotless record he left behind him, than they are of the accumulation that a life time of industry enabled him to leave. Opportunities to day are as favorable, if not more so, then when he started out, and by emulating his example they can attain the same success that crowned his efforts.

But Mr. Rothe did not devote his entire effort to making life a success in merely a business way. Only few of the people of Hondo who met this quiet, unobtrusive gentleman on our streets daily knew that he had devoted all of his spare time to study and he was one of the best posted men in the current history of the world in West Texas at the time of his demise.

The body was brought home on the Tuesday evening's train and the funeral occurred from his residence at 3:30 Wednesday afternoon, April 3rd. Religious services were conducted at the home by Rev. A. Falkenberg, pastor of the Lutheran Church, after which the Masonic fraternity, of which he had long been a member, took charge of the remains and gave them a ritualistic burial in Woodlawn Cemetery, one of the largest assemblages of people ever

congregated in Medina County on a similar occasion being in attendance. Rev. J. W. Long, pastor of the Methodist Church, delivered an address at the grave extolling the many virtues of the deceased. The most exquisite floral offerings obtainable covered the mound, beneath which the mortal remains of Henry Rothe will rest until resurrection morn.

Decedent was one of the best known men in West Texas, and one of the most highly esteemed, and many an eye unused to tears, was moistened when it became known that he had passed to the beyond. His memory will long be cherished by a multitude of friends.

The family has the sincere sympathy of all our people in its bereavement. But it must be a cause of consolation to them to know that hosts of others feel a personal loss in the passing of this worthy, patriotic, exemplary citizen and friend. In his death the Hondo Red Cross loses one of its most liberal and sympathetic supporters, and the state and nation a man they can ill afford to spare.

Hon. John N. Garner,
House of Representatives,
Washington, D. C.

My dear Mr. Garner:

Your favor of March 31, with enclosure from Mr. F. S. Cockrell, received. We have not yet received word from the Commanding Officer requesting the rental of land at Hondo, Texas. As soon as the information comes to hand, if it is favorable, we shall act promptly. Yours very truly,

C. G. EDGAR,
Colonel, Signal Corps.

Card of Thanks.

We avail ourselves of this means to express our deep appreciation of the assistance and sympathy of our kind friends and neighbors during the illness and at the death of our beloved Rosa; and we also wish to especially thank those who furnished the beautiful floral offerings at her funeral. Their kindness and sympathy will always be held in most grateful remembrance by

Sincerely yours,

HER RELATIVES.

Card of Thanks.

For the sympathy and assistance rendered us during the illness and at the death of our beloved husband and father, Folkert Saathoff; and we especially wish to thank Rev. Gus Muenink for the kind and encouraging words spoken at the grave; also those who so thoughtfully furnished the beautiful floral offerings at the funeral. May God bless them for their goodness to us is the prayer of

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers. Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If you druggist hasn't any freezone he can get it at any wholesale drug house for you

Miss Rosa Sturm.

Died—In San Antonio, Texas, April 1, 1918. Miss Rosa Sturm, aged 50 years, 2 months and 28 days.

Decedent was a native of Medina county and spent her entire life in the vicinity of her birth, and was universally esteemed by all who knew her, and her death has caused great sorrow among a large circle of friends.

Amid the tears of those who had known and loved her her entire life her body was gently laid to rest in the Catholic cemetery at Castroville, Rev. Father Heckmann conducting the services. The funeral was largely attended and the many beautiful floral offerings that bedecked her last resting place were mute tributes of affection from her grief-stricken friends.

Besides a large circle of friends she is survived by three sisters and one brother to grieve over her death.

The relatives have the sympathy of all their neighbors and friends in this, their hour of sorrow.

Red Cross Notes.

A business meeting of the Medina County Red Cross Society was held in Red Cross Hall Wednesday, presided over by Mrs. Wm. A. Schmitt. The most important matter to come before the meeting was the election of a new county chairman, vice Judge R. J. Noonan, resigned. Mr. C. J. Monkhouse was unanimously elected to the vacated position. Pressure of other business compelled Judge Noonan to relinquish the chairmanship of the County Red Cross Society. He is still chairman of the County Council of Defense, of the Liberty Loan and Thrift Saving Stamp Committees, the duties of which, in connection with his duties as county judge, made it physically impossible for him to give the attention to the Red Cross work that its importance demanded. The selection of Mr. Monkhouse as county chairman gives universal satisfaction to our people.

Another important act of the Hondo Auxiliary of the Red Cross was the discontinuance of the "canteen committee" whose duty heretofore has been to meet and serve light refreshments to the aviators on their periodic visits here. This act was made necessary on account of the increasing difficulty of procuring flour and sugar.

The Hondo Auxiliary also passed a resolution expressing their deep appreciation to organizations and individuals for liberal donations made to the treasury of the Hondo Auxiliary. Contributions were acknowledged from the following organizations and individuals: Herman Sons Lodge, Biry, \$31; Herman Sons Lodge, D'Hanis, \$25; Woodmen of the World Lodge, D'Hanis, \$15; Order Eastern Star, Hondo, \$10; Royal Neighbors, Hondo, \$25; Mrs. Geo. W. Jones, Hondo, \$12.50; Mrs. C. J. Bless, Hondo, \$5.00; Mr. E. P. Ingram, Hondo, \$2.00.

It was also agreed that the work hours in future, instead of 2 to 6 p. m. as heretofore, would be changed to 3 to 7 p. m. to conform to the new time.

For business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday of each week.

The severe drought was broken Friday evening, when this was blessed with a two inch shower according to statements of farmers, it did not soak the soil as the downpour was too light, as they are very grateful, for an abundance of stock water.

Children, six boys and eight girls, received the rites of Confirmation at the Lutheran Church here Sunday. They are: Raymond Tschirp, Joseph Bippert, Adolph Elter, Oscar App and Louis and Rosa Mollie de Montel, Edna Alice Grossenbacher, Bertha Lena Bongers, and Marguerite.

Remains of Miss Rosa who died at San Antonio, was brought to Castroville last Tuesday and was laid to rest on Wednesday afternoon at St. Louis Catholic church. Rev. Father Heckman officiated.

Has resigned as manager of Meat Market and accepted position with the Medina Mercantile. Success to him!

John Keller of Devine spent with his best friend, in our town.

Lawrence F. Ahr of San Antonio spent last week with home.

Mrs. Otto Huegele of Yellow Springs spent Sunday here with her mother and Willie Brieden.

Lee Mangold returned to his home Monday; his parents, Mr. and Mrs. Mangold, accompanied him to San Antonio.

Life Was a Misery

Mrs. F. M. Jones, of Oklahoma, writes: "From the time I entered into womanhood I looked with dread on one month to the next. I suffered with my stomach and bearing-down pains, until life to me was misery. I would think I could not endure the pain any longer, and I finally got worse. . . . I was in bed, one day, . . ."

TAKE CARDUI Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only relieved, but can testify that I have no more pain. . . . It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl who is a sufferer from any female trouble, if you suffer pain caused by womanly trouble, or if you feel the need of a strengthening tonic, to take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you."

Druggists

Mothers of Texas, Prepare!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Texas would testify just as do the following:

HOUSTON HEIGHTS, TEXAS.—"My mother used Dr. Pierce's Favorite Prescription. She was in very ill health, was all run down and it seemed like she could not get anything to do her any good until she took this medicine. It did her more good than anything she tried and I am always willing to recommend it to friends who need a fine tonic."—MRS. JULIA STINSON.

FORT WORTH, TEXAS.—"I can recommend Dr. Pierce's Favorite Prescription to any woman suffering from woman's trouble or nervousness. I was very nervous and losing weight so fast I became alarmed over my condition. I could not do any housework. A friend told me about the 'Favorite Prescription' so I tried it and began gaining in weight at once."—MRS. LIZZIE EPPERSON, 1220 Gould Avenue.

Dr. Pierce's Favorite Prescription is not a secret remedy for all the ingredients are printed on the wrapper.

Growing Spanish Peanuts.

BY FLETCHER DAVIS.
For the Texas Department of Agriculture.

There are two varieties of peanuts with reference to their growing characteristics—the runner and the bunch varieties. The latter is the most popular, owing to its greater ease of cultivation and its usual quicker growth. The Spanish peanut is of this variety, and matures in about 90 days—weighing 30 pounds to the bushel. It forms its prolific fruit in a thick cluster of thin shell pods, with usually two plump peas to each pod, close to the base of the plant, rendering it easy of both cultivation and harvesting. It is rich in oil and is the most generally grown peanut for crushing and stock feeding. The State Department of Agriculture will furnish you with the names of parties having seeds of this variety for sale.

The peanut thrives best in a loose, sandy loam that is well drained and contains plenty of lime. Most any soil, however, that does not crust or bake too readily after rains, will grow peanuts; although it would not be profitable to grow them for commercial purposes on clayey soils that will adhere to the nuts in digging, on account of the difficulty in preparing them for market. The soil should be thoroughly prepared by early and deep breaking, where practicable, and frequent disking and harrowing to conserve moisture, keep down weed growth until planting time, and to put the soil in good tilth. Each farmer should understand the physical nature and the needs of his particular soil and so handle it as to secure the best possible seed bed. That the same method of handling all soils will not attain this end, is obvious, but the obtaining of the best possible seed bed is the object to be sought, and all methods should be adapted in this achievement.

On well drained soils, water-furrow or level planting is to be preferred. Whether this system or the ridge method is to be preferred, however, is best determined—as in the preparation of the soil—by the man on the ground. They may be planted any time after the danger of frost is past, up to about July 19, or later in the Southern part of the State. Twenty-eight inches in row and from 9 to 12 inches in the drill are about the right distances for planting, but this may be varied to best facilitate cultivation with the implements available.

There are peanut planters on the market, selling from \$10 to \$20, that will drop either the shelled peas or the whole pods. It takes about 1 peck of shelled peanuts, or 1½ bushels of whole pods to plant an acre. Where the whole pods are planted, they should be soaked in water a few hours—not long enough for them to spoil—and planted down in the moist soil before being permitted to dry. If there is a liability of rodents destroying the seeds, they can be protected by dissolving a five cent bar of laundry soap in boiling water and stirring thoroughly into this half a pint of coal oil and then mixing this hot preparation with a sufficient quantity of cool water to soak two bushels of peanuts in the hulls. This preparation should not be used on shelled

peanuts, and it is better to poison the rodents before planting rather than seek to repel them in this way. The nuts should be planted in moist ground, but they need to be covered to a depth varying from only 1 of an inch in heavy soils to 2 inches in light, sandy soils.

If the soil shows a tendency to bake or is becoming foul with weeds or grass, a drag harrow can be run all over the crop while it is young or just coming up, being careful, of course, to set the teeth of the harrow so as not to tear the plants out of the ground; or where soil is loose and loamy and when grass and weeds grow rapidly, the first and even the second plowing may be done by running a sweep shallow and close enough to completely cover up all the grass, weeds and even the peanuts. This operation, if done in time, will clean the rows by smothering the grass and weeds, but the peanuts will come through to a perfect stand within 24 or 48 hours, provided of course, they are not covered too deep, in which case they may never come through. Frequent shallow cultivation with ordinary implements to keep down weeds and maintain a soil mulch, is all the cultivation needed. Even this should cease when the plants begin to peg, and by the last plowing, a gently sloping ridge or bed should be formed around the plants. — S. W. Farmer and Investor.

Hand-Picked Vs. Thresher-Run Peanut Seed.

BY FLETCHER DAVIS.
The value of careful seed selection is forcefully illustrated by a comparison of results on two farms near Alvin last year. The facts are vouched for by Mr. E. L. Long, a successful seed and feed dealer of that city, who furnished us with the information.

According to Mr. Long, Farmer A. planted his peanut crop last year for the third successive season from thresher-run seeds. At harvest time his threshed peanuts ran from 90 to 95 lbs. per sack at the thresher. Farmer B. planted his crop from hand-picked seeds, each pod planted having two well matured nuts, and at harvest time his peanuts ran from 110 to 120 pounds per sack at the thresher. The weight per bushel of Spanish peanuts is 30 pounds.

The soil on which these two results were secured was of the same quality. The manner of preparation, time of planting and method of cultivation was practically the same. So the production of twenty-five per cent more in weight and a still greater per cent improvement in quality of the nuts was due entirely to the care in selecting the seeds.

The result was so striking that Mr. Long is urging his patrons to use only hand-picked seeds for this year's planting. — S. W. F. and Inv.

Same Good Advice.

"Don't think too much of your own methods. Watch other peoples ways and learn from them." This is a good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example.

I am Sincere! Stop Calomel! I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle

costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe all the next day like violent calomel.

INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel full and languid after eating you may know that your digestion is faulty, unless you have eaten more than you

should. Belching, sour stomach and bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also most excellent for biliousness. Sold everywhere at 25c.

BORDER DEALER'S LICENSE REVOKED BY GOVERNMENT

M. J. GARCIA OF BROWNSVILLE
FORBIDDEN TO CONTINUE IN
SAME LINE BY FOOD ADMINIS-
TRATION.

Notice has been served by the United
States government upon M. J. Gar-
cia of Brownsville, Texas, a whole-
sale grocer, that his United States
Food Administration License No.
G-14269 has been revoked.

The revocation of this license is the
first to take place under the jurisdic-
tion of Food Administrator Peden. It
is regarded as an example of quick
and effectual decision, unhampered by
long court proceedings; and an illus-
tration of what will befall the dealers
or licensees who attempt to conduct
their business along lines not author-
ized by the federal food law.

Garcia had a large wholesale busi-
ness in Brownsville, and also a store
in Matamoros. It was discovered upon
investigation made by the department
of justice that he had exported to Mex-
ico large quantities of sugar and lard,
as well as other commodities, without
obtaining the export license, and in
violation of the federal food law. Gar-
cia fled to Mexico when he learned that
the federal government had issued
warrant for his arrest; and the
hearing of the case occurred in Hous-
ton before special examiner, Judge
Henry J. Dannenbaum, without the de-
fendant being present. The proceed-
ings in the case were held on January
5. Five days later, on January 10, the
legal division of the United States
Food Administration passed upon the
case and approved the recommenda-
tions of the federal food administrator,
that Garcia's license be revoked.

Disposition of Stock.

In the case of Garcia the stock on
hand is placed in the hands of a re-
ceiver, and the merchandise is sold.
After the liabilities of the firm are
settled the amount left is turned over
to the owner of the closed business,
or those who act as his representa-
tives. Garcia is said to have disposed
largely of his wholesale stock before
going to Mexico. So long as the United
States Food Administration exists
Garcia may not engage in the same
line of business, unless his applica-
tion for another license is granted.

Gained 11 Pounds On Tanlac—Troubles
Are Gone Now He Says.

It is not what the manufacturer
claims for it, but the testimony of the
multiplied thousands who have been
benefitted by it that has made Tanlac
the most famous medicine in the world
today. A. Palmer of 534 South Pearl
Street, Denver, Colorado, a well known
tailor who has been a resident of that
city for six or seven years, in relating
his experience with Tanlac, said:

"For several years I have had an
awful lot of trouble with my stomach.
Everything disagreed with me and
after meals I would get that puffed
up, bloated feeling and belch up my
food sour and undigested. I got to the
point where I was almost afraid to eat
anything because of the suffering I
knew it would cause me. I was con-
stipated, had terrible headaches and
my sleep was very poor. My system
seemed to be all run down, I was losing
weight and felt tired and worn-out all
the time. I was losing ground all the
time and felt that unless I could get
the right medicine my troubles would
soon become serious.

"My wife who had been keeping up
with the Tanlac testimonials persuaded
me to try it and it has not only relieved
me of my troubles but has built me up
amazingly. I have taken three bottles
and my stomach is now in good shape.
My appetite is fine and I can eat what
I want without feeling a sign of indig-
estion. My constipation and head-
aches and all that tired feeling is gone
and I have gained eleven pounds in
weight, besides. Tanlac has been a
great thing for me and I don't think
anybody suffering like I did can make
a mistake by giving it a trial."

Tanlac is sold in Hondo by Lion Drug
Store, in D'Hanis by Louis Carle, in
LaCoste by Dickey Drug Co., and in
Dunlay by Louis A. Haby.

are notifying beneficiaries who
are entitled to make claim under the
War Risk Insurance Act, that they
employ counsel in order to be
able to obtain payments from the
government. In many instances beneficiaries
have been induced to advance
substantial sums of money to these
agents in return for the promise of a
sum which in all probability will be
never received.
These activities are in direct violation
of the spirit of the War Risk Insurance
Act, and are in the highest degree
reprehensible and unpatriotic.
They are promptly and effectively
checked by the War Risk Insurance
Commission, and will produce the same
unfavorable conditions which brought
credit upon our previous war risk
system.
In the passage of an amendment
to strengthen the law, action
will be taken to protect beneficiaries
from the mischievous activities of these
unscrupulous claim chasers. The law
of the country are in a position
to afford this protection by volunteering
their services to beneficiaries in
preparation and filing of their
claims. While these services will be
of an extremely simple nature they
will only be of great value to the
beneficiaries receiving them, but will solve
a problem of national importance and
standing. We believe that every
member of the Bar will gladly
respond to the assistance of the Government
and give this aid to the dependents
of men in the service.
One in each community must
be the lead in this matter. You, as
Chairman of the Legal Advisory Board,
have once before called together
lawyers of the district for a not
unusual service, are naturally the
one to take the lead in your district.
Suggest as a first step that you
call upon your associates for co-operation
in order that the work may be
distributed and made as light a
task for each individual. Next that
you enlist such forms of publicity as
you may have at your disposal so that no
beneficiary in your community in need of
assistance will have excuse to seek it
of your ranks. Thirdly, that
you proceed to aid gratuitously beneficiaries
unable without assistance to
make their claims, and that you continue
this gratuitous service until circumstances
no longer require it. Lastly,
that you send to the American Bar
Association, 1712 Eye Street, N. W.,
Washington, the name of every claim
agent, pension attorney or other person
known by you to be violating the
provisions of the War Risk Insurance Act
in the manner above described.
The Legal Committees of the State
of Defense or Home Service
Committee, or the Red Cross already
engaged in giving free legal advice to
war men or their dependents,
of course, be utilized in carrying
out the work herein suggested.
Very truly yours,
JOHN LOWELL, Chairman
Legal Committee for War Service.

Yancey News.
Last Sunday afternoon the people of
this community assembled at the School
Auditorium to listen to two able speak-
ers—Rev. Lewis of Devine, who is
pastor of the Baptist Church of this
place, and Judge Kercheville, also of
Devine. The subject was "Patriotism
and Americanism". After the speak-
ing and singing of several patriotic
songs the crowd assembled on the
school grounds where a pole had been
erected on the previous day, and a United
States flag was raised while the
crowd sang "The Star-spangled Banner".
Prof. Saathoff of Hondo gave us a
brief talk on the flag, after which he
gave the Salute which was also given
by the entire crowd.
At 7:30 p. m. there was another
meeting and the Third Liberty Bond
question was brought before the people.
—Rev. Lewis and Judge Kercheville
are both very patriotic and enthusiastic
in this third move, and will canvass
the county in its behalf. Rev. Lewis
filled his regular appointment at the
Baptist Church Sunday morning. Mrs.
Judge Kercheville and two of
his daughters, whose names we failed
to learn, accompanied him.
We have had several good showers
since our last report; everybody is busy
getting their seeds planted. People
have almost forgotten that we have
had a drouth, and we suppose never
before were as anxious and cheerful
about the farm work. There will be
milo maize, kafir corn and feterita
planted here.
Everybody has a war garden, and
vegetables will soon be plentiful.
Prof. Cunningham of Austin, the
Rural School Agent, was here one day
this week. He also visited Natalia,
Biry, Devine and other points, in com-
pany with Supt. Saathoff.
Mr. J. C. Newton and family went
to Sabinal Tuesday to visit Mrs. Clark
of that place, who has not yet fully
recovered from a recent attack of
pneumonia.
We are glad to report that little Earl
Berry, whom we reported very sick at
our last writing, is able to be up and
about again.
We learn that Mrs. S. H. Bohmfalk
has sufficiently recovered from an opera-
tion to be able to leave the hospital
Tuesday. We hope she will soon re-
turn to Yancey, and once more regain
her former health.
Mr. John Nixon received a message
Sunday stating that Dr. Nixon was
very sick at the ranch near Utopia.
Mr. and Mrs. Nixon left immediately
to be at the bedside, but found him
somewhat improved and he is still im-
proving at this writing.
Mr. Ben Moss and two other gentle-
men arrived here Tuesday from Ariz-
ona; they left there last Thursday
morning in a Ford car, report a pleas-
ant trip, no accidents, but say the
country looks bad west of here, not an
inch of rain west of Sabinal.
Messrs. L. W. Williams and S. P.
Childress were Hondo business visitors
last week Friday.
Rev. and Mrs. Wheat went to Hondo
last Friday incidentally visiting Mr.
and Mrs. J. A. Blackburn.

From the Draft Board.
The Local Exemption Board
of this County has received in-
struction to entrain eleven
white men and five negroes for
Camp Travis the latter part of
this month. In making selec-
tion of these men, the Board has
been instructed to defer sending
men who are "actively, com-
pletely and assiduously" en-
gaged in farming, and has been
impressed with the importance
in determining claims based up-
on this ground for deferment.
In these instructions, all citizens
are called upon to assist the
Board so that no unjust claims
will be allowed in the first place;
and that, after such deferment
has been granted to a registrant
in Class 1, the object thereof be
not abused. The paragraph of
these instructions relating to
this matter is as follows:
"The situation arising from
the scarcity of farm labor de-
mands that the call to the colors
of men actively, completely and
assiduously engaged in the
planting or cultivation of a crop
but who are in class 1 and with-
in the quota should be deferred
until the end of the new quota.
Please instruct your local
Boards therefore that, in filling this
emergency call, they shall pass
the order numbers of such men
and defer their call for the pres-
ent. It must be borne in mind
that this step is taken solely in
the need of the Nation and not
for the benefit of any individual.
Therefore, while Boards should
consider it a grave duty to exer-
cise this power to conserve and
augment the agricultural pro-
duction, they should observe
closely the conduct of those de-
ferred and if he is not giving
his entire time and earnest
attention to agricultural duty or
if he is trifling with the defer-
ment thus granted him the
Board should forthwith call him
to the colors. All citizens should
assist in making this expedient
effective and bringing to the at-
tention of the Boards cases mer-
iting deferment as well as cases
in which deferment is being
abused.—Crowder."

The local board now calls upon
the citizens of this county to
comply with the request of Gen-
eral Crowder.
A grave and important duty is
imposed upon the board by these
instructions in that they are re-
quired to send men whose order
number has not been reached in
the place of those who are to be
temporarily excused, and the
board hopes that all loyal and
patriotic citizens of this county
will see that no slacker takes ad-
vantage of this privilege and
sends another in his place to per-
form the duty which he, the
slacker, should do for his coun-
try.

Drouth Relief Meeting.
Austin, Texas, March 28, 1918.
Anvil Herald,
Hondo, Texas,
Gentlemen:—
Mr. Fletcher Davis of the
Department of Agriculture will
be in your town Saturday, April
13th, at Three o'clock P. M. for
a meeting of the County Com-
missioners, the Council of De-
fense and farmers to explain the
Drouth Relief Bill, and to aid
them in securing the assistance
provided under the law. The
Governor is sending these men
in the hope that the relief may
be secured in time to be of serv-
ice. Kindly give all publicity
possible and arrange place for
meeting.
In many instances counties
will not require aid of the State,
yet it is very essential that the
Commissioners' Courts and the
farmers understand thoroughly
the procedure as outlined under
this Act, in order that they may
be able to obtain the relief in-
tended by the Law. The speak-
ers will have copies of the
blanks to be used in administer-
ing the law, and will be able to
advise the Commissioners',
Courts and others as to the best
procedure. We trust that much
good will result from this work.
Yours very truly,
B. F. JOHNSON,
Manager.
The meeting will be held at
the Courthouse at the appoint-
ed time.

**GIRLS! LEMON JUICE
IS A SKIN WHITENER**
How to make a creamy beauty lotion
for a few cents.
The juice of two fresh lemons strained
into a bottle containing three ounces of
orchard white makes a whole quart
pint of the most remarkable lemon skin
beautifier at about the cost one must
pay for a small jar of the ordinary cold
creams. Care should be taken to strain
the lemon juice through a fine cloth so
no lemon pulp gets in, then this lotion
will keep fresh for months. Every
woman knows that lemon juice is used
to bleach and remove such blemishes as
freckles, sallowness and tan and is
the ideal skin softener, whitener and
beautifier.
Just try it! Get three ounces of
orchard white at any drug store and
two lemons from the grocer and make up
a quart pint of this sweetly fragrant
lemon lotion and massage it daily into
the face, neck, arms and hands.

BORDER DEALER'S
LICENSE REVOKED
BY GOVERNMENT
M. J. GARCIA OF BROWNSVILLE
FORBIDDEN TO CONTINUE IN
SAME LINE BY FOOD ADMINIS-
TRATION.

Notice has been served by the United States government upon M. J. Garcia of Brownsville, Texas, a wholesale grocer, that his United States Food Administration License No. G-11269 has been revoked.
The revocation of this license is the first to take place under the jurisdiction of Food Administrator Peden. It is regarded as an example of quick and effectual decision, unhampered by long court proceedings, and an illustration of what will befall the dealers or licensees who attempt to conduct their business along lines not authorized by the federal food law.
Garcia had a large wholesale business in Brownsville, and also a store in Matamoros. It was discovered upon investigation made by the department of justice that he had exported to Mexico large quantities of sugar and lard, as well as other commodities, without obtaining the export license, and in violation of the federal food law. Garcia fled to Mexico when he learned that the federal government had issued warrant for his arrest; and the hearing of the case occurred in Houston before special examiner, Judge Henry J. Dennenbaum, without the defendant being present. The proceedings in the case were held on January 5. Five days later, on January 10, the legal division of the United States Food Administration passed upon the case and approved the recommendations of the federal food administrator, that Garcia's license be revoked.
Disposition of Stock.
In the case of Garcia the stock on hand is placed in the hands of a receiver, and the merchandise is sold. After the liabilities of the firm are settled the amount left is turned over to the owner of the closed business, or those who act as his representatives. Garcia is said to have disposed largely of his wholesale stock before going to Mexico. So long as the United States Food Administration exists Garcia may not engage in the same line of business, unless his application for another license is granted.

CRYING FOR HELP.
Lots of It in Hondo But Daily Growing Less.
The kidneys often cry for help. Not another organ in the whole body more delicately constructed; Not one more important to health. The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the frequent indications of kidney trouble. It is often the kidneys' cry for help. Read what Doan's Kidney Pills have done for overworked kidneys. Read what Doan's have done for Hondo people.
Mrs. Jack Droitcourt, Hondo, says: "A severe attack of backache kept me in the house for two weeks. My back pained almost constantly, scarcely letting up night or day. I felt miserable and wasn't able to attend to my housework. Two boxes of Doan's Kidney Pills, which I got at Windrow's Drug Store, took the pains out of my back and completely cured me of the trouble. Three years have passed and it hasn't returned."
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Droitcourt had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

DECLARES RESULT
HAS BEEN AMAZING.

Gained 11 Pounds On Tanlac—Troubles Are Gone Now He Says.

It is not what the manufacturer claims for it, but the testimony of the multiplied thousands who have been benefitted by it that has made Tanlac the most famous medicine in the world today. A. Palmer of 534 South Pearl Street, Denver, Colorado, a well known tailor who has been a resident of that city for six or seven years, in relating his experience with Tanlac, said:
"For several years I have had an awful lot of trouble with my stomach. Everything disagreed with me and after meals I would get that puffed up, bloated feeling and belch up my food sour and undigested. I got to the point where I was almost afraid to eat anything because of the suffering I knew it would cause me. I was constipated, had terrible headaches and my sleep was very poor. My system seemed to be all run down, I was losing weight and felt tired and worn-out all the time. I was losing ground all the time and felt that unless I could get the right medicine my troubles would soon become serious.
"My wife who had been keeping up with the Tanlac testimonials persuaded me to try it and it has not only relieved me of my troubles but has built me up amazingly. I have taken three bottles and my stomach is now in good shape. My appetite is fine and I can eat what I want without feeling a sign of indigestion. My constipation and headaches and all that tired feeling is gone and I have gained eleven pounds in weight, besides. Tanlac has been a great thing for me and I don't think anybody suffering like I did can make a mistake by giving it a trial."
Tanlac is sold in Hondo by W. H. Windrow, in Devine by Lion Drug Store, in D'Hanis by Louis Carle, in LaCoste by Dickey Drug Co., and in Dunlay by Louis A. Haby.

Agents Not Necessary.

March 25, 1918.

Chairman Legal Advisory Board.

has come to the attention of the American Bar Association that unscrupulous claim agents and pension attorneys are notifying beneficiaries who are entitled to make claim under the War Risk Insurance Act, that they will employ counsel in order to be able to obtain payments from the Government. In many instances beneficiaries have been induced to advance substantial sums of money to these agents in return for the promise of a service which in all probability will be necessary.

These activities are in direct violation of the spirit of the War Risk Insurance Act, and are in the highest degree reprehensible and unpatriotic. They are promptly and effectively checked they will result in grievous damage, and will produce the same favorable conditions which brought discredit upon our previous war risk system.

During the passage of an amendment to strengthen the law, action will be taken to protect beneficiaries from the mischievous activities of these professional claim chasers. The law of the country are in a position to afford this protection by volunteering their services to beneficiaries in preparation and filing of their claims. While these services will be an extremely simple nature they are of great value to the beneficiaries, but will solve the problem of national importance and standing. We believe that every member of the Bar will gladly lend to the assistance of the Government and give this aid to the dependents of men in the service.

One in each community must take the lead in this matter. You, as Chairman of the Legal Advisory Board, have once before has called together lawyers of the district for a not similar service, are naturally the one to take the lead in your district. I suggest as a first step that you call upon your associates for co-operation in order that the work may be distributed and made as light a position for each individual. Next that you enlist such forms of publicity as are at your disposal so that no beneficiary in your community in need of assistance will have excuse to seek it from your ranks. Thirdly, that you proceed to aid gratuitously beneficiaries unable without assistance to make their claims, and that you continue such gratuitous service until circumstances no longer require it. Lastly, you send to the American Bar Association, 1712 Eye Street, N. W., Washington, the name of every claim agent, pension attorney or other person known by you to be violating the provisions of the War Risk Insurance Act in the manner above described.

Very truly yours,
JOHN LOWELL, Chairman
Legal Committee for War Service.

Yancey News.

Last Sunday afternoon the people of this community assembled at the School Auditorium to listen to two able speakers—Rev. Lewis of Devine, who is pastor of the Baptist Church of this place, and Judge Kercheville, also of Devine. The subject was "Patriotism and Americanism". After the speaking and singing of several patriotic songs the crowd assembled on the school grounds where a pole had been erected on the previous day, and a United States flag was raised while the crowd sang "The Star-spangled Banner". Prof. Saathoff of Hondo gave us a brief talk on the flag, after which he gave the Salute which was also given by the entire crowd.

At 7:30 p. m. there was another meeting and the Third Liberty Bond question was brought before the people—Rev. Lewis and Judge Kercheville are both very patriotic and enthusiastic in this third move, and will canvass the county in its behalf. Rev. Lewis filled his regular appointment at the Baptist Church Sunday morning. Mrs. Judge Kercheville and two of his daughters, whose names we failed to learn, accompanied him.

We have had several good showers since our last report; everybody is busy getting their seeds planted. People have almost forgotten that we have had a drouth, and we suppose never before were as anxious and cheerful about the farm work. There will be milo maize, kafir corn and feterita planted here.

Everybody has a war garden, and vegetables will soon be plentiful.

Prof. Cunningham of Austin, the Rural School Agent, was here one day this week. He also visited Natalia, Biry, Devine and other points, in company with Supt. Saathoff.

Mr. J. C. Newton and family went to Sabinal Tuesday to visit Mrs. Clark of that place, who has not yet fully recovered from a recent attack of pneumonia.

We are glad to report that little Earl Berry, whom we reported very sick at our last writing, is able to be up and about again.

We learn that Mrs. S. H. Bohmfalk has sufficiently recovered from an operation to be able to leave the hospital Tuesday. We hope she will soon return to Yancey, and once more regain her former health.

Mr. John Nixon received a message Sunday stating that Dr. Nixon was very sick at the ranch near Utopia. Mr. and Mrs. Nixon left immediately to be at the bedside, but found him somewhat improved and he is still improving at this writing.

Mr. Ben Moss and two other gentlemen arrived here Tuesday from Arizona; they left there last Thursday morning in a Ford car, report a pleasant trip, no accidents, but say the country looks bad west of here, not an inch of rain west of Sabinal.

Messrs. L. W. Williams and S. P. Childress were Hondo business visitors last week Friday.

Rev. and Mrs. Wheat went to Hondo last Friday incidentally visiting Mr. and Mrs. J. A. Blackburn.

From the Draft Board.

The Local Exemption Board of this County has received instruction to entrain eleven white men and five negroes for Camp Travis the latter part of this month. In making selection of these men, the Board has been instructed to defer sending men who are "actively, completely and assiduously" engaged in farming, and has been impressed with the importance in determining claims based upon this ground for deferment. In these instructions, all citizens are called upon to assist the Board so that no unjust claims will be allowed in the first place; and that, after such deferment has been granted to a registrant in Class 1, the object thereof be not abused. The paragraph of these instructions relating to this matter is as follows:

"The situation arising from the scarcity of farm labor demands that the call to the colors of men actively, completely and assiduously engaged in the planting or cultivation of a crop but who are in class 1 and within the quota should be deferred until the end of the new quota. Please instruct your local Boards therefore that the President directs that, in filling this emergency call, they shall pass the order numbers of such men and defer their call for the present. It must be borne in mind that this step is taken solely in the need of the Nation and not for the benefit of any individual. Therefore, while Boards should consider it a grave duty to exercise this power to conserve and augment the agricultural production, they should observe closely the conduct of those deferred and if he is not giving his entire time and earnest attention to agricultural duty or if he is trifling with the deferment thus granted him the Board should forthwith call him to the colors. All citizens should assist in making this expedient effective and bringing to the attention of the Boards cases meriting deferment as well as cases in which deferment is being abused.—Crowder."

The local board now calls upon the citizens of this county to comply with the request of General Crowder.

A grave and important duty is imposed upon the board by these instructions in that they are required to send men whose order number has not been reached in the place of those who are to be temporarily excused, and the board hopes that all loyal and patriotic citizens of this county will see that no slacker takes advantage of this privilege and sends another in his place to perform the duty which he, the slacker, should do for his country.

Intending travelers are warned that while the schedule of the trains departing from Hondo as published in the Anvil Herald is correct, they should bear in mind it means one hour earlier than a week ago. To be safe it would be better to turn your time-piece up one hour.

Drouth Relief Meeting.

Austin, Texas, March 28, 1918.

Anvil Herald,
Hondo, Texas,

Gentlemen:—

Mr. Fletcher Davis of the

Department of Agriculture will

be in your town Saturday, April

13th, at Three o'clock P. M. for

a meeting of the County Com-

missioners, the Council of De-

fense and farmers to explain the

Drouth Relief Bill, and to aid

them in securing the assistance

provided under the law. The

Governor is sending these men

in the hope that the relief may

be secured in time to be of service.

Kindly give all publicity possible and arrange place for

meeting.

In many instances counties

will not require aid of the State,

yet it is very essential that the

Commissioners' Courts and the

farmers understand thoroughly

the procedure as outlined under

this Act, in order that they may

be able to obtain the relief intended by the Law. The speakers

will have copies of the blanks to be used in administering the law, and will be able to

advise the Commissioners' Courts and others as to the best

procedure. We trust that much

good will result from this work.

Yours very truly,

B. F. JOHNSON,
Manager.

The meeting will be held at the Courthouse at the appointed time.

GIRLS! LEMON JUICE

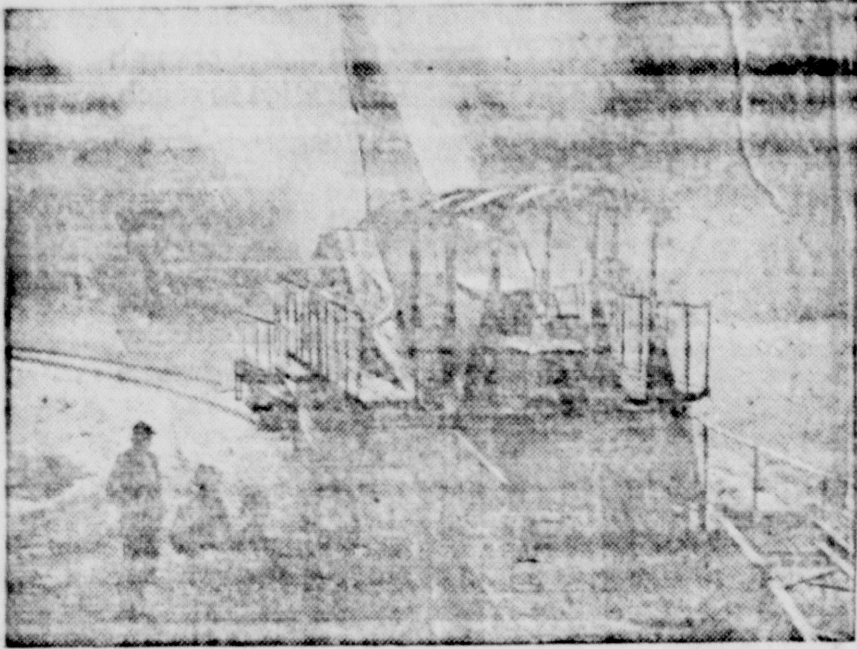

IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Gigantic French War Exhibit to Tour State

There is now being assembled at Waco, Texas, several car loads of every conceivable kind of fighting apparatus that is used on the battle fields of Europe, in the submarine warfare, and in the sky. The exhibit is the property of the French Government and is in charge of Mr. H. B. Coles, representative of the French High Commission. Mr. Coles is being aided in the arranging of the trophies by Mr. M. L. Fuller, special representative of the Missouri Pacific R. R.

This priceless collection will, when ready, be transferred to the American Government, and in turn into the care of the officials of the Eleventh Federal Reserve District.

Arrangements have been completed to divide the exhibit into two trains of five cars each, each train being composed of two flat cars, two baggage cars, and sleeper. The routing and transportation of the trains over the territory comprising this Federal Reserve District, is in the hands of Mr. O. W. Campbell, assistant to chief operating officer of the M. K. & T. Ry. The itinerary will allow for the inspection of the exhibit by the largest number of people possible in the various sections of the District. Two to three hour stops will be made at cities and towns en route. Each train will have a lecturer to explain in detail the history of the relics, and American soldiers will act as a Guard of Honor. The trains will start on this pilgrimage on the morning of April 6th, the opening day for the Third Liberty Loan drive. To attempt to describe in detail the history of this collection would be to tell the full story of the war. Nothing like it has ever been seen in America.

There is shown the type of torpedo that sank the Lusitania, airplanes, parts of Zeppelins, and every description of rifle and cannon that is being utilized.

They look—the airplanes and the 75's, the milltralleuses and the trench mortars, and the caissons and the big gun carriages with the barrels shot away—as if they had been through every known kind of warfare.

The big French 75 millimeter cannon, a part of this exhibit, was damaged at the battle of the Yser. It shoots 23 times per minute, and without rest, an automatic cooling process making this possible. This immense gun is so perfectly balanced that one man can move it around. The range is four miles. The barrel is perforated with machine gun holes, made in close quarter fighting.

These are the guns that helped save Paris at the Marne, when the Germans were within fifteen miles of the capital.

A captured German airplane of the "Albatross" type, with a speed of 125 miles per hour is shown. When brought down, the two occupants, both officers, were dead; one of them wore the "Iron Cross" of bravery, and the machine itself, evidently for previous meritorious service, was designated with the same insignia.

There is a large German mortar of the "Minniewerfer" type, which was captured at the Marne by General Joffre's men. This piece is used to break down heavy defenses, and wherever it hits, everything is annihilated within a radius of several hundred yards.

You will see one of the French 400 millimeter guns that shoots a 16 inch shell and carries 24 miles, and is effective at 20 miles.

There is a collection of German 12 inch shells, captured at the Battle of Aires.

A notable relic is a Zeppelin bomb weighing 175 lbs. Each Zeppelin crew consists of 14 men, 2 machine guns, and 14 tons of projectiles.

There are liquid bombs for incendiary purposes. A defective German shell that burst out at the side, probably killing the nearest Boche—a French machine gun that shoots 550 shots per minute, the cartridges being fed on steel clips containing 26 cartridges each—a German trench mortar captured at Soissons—French catapults, a medieval style brought up to date, which throw grenades with immense force.

A peculiarly interesting piece is the gun carriage of one of the giant 120 millimeter French siege guns. This particular gun carriage was recently recognized by a French Officer visiting Waco, who declared his promotion was gained in an action around this gun. He shed tears of emotion when he satisfied himself of the gun's identity.

For trench war-fare, gun rests with periscopes are shown, so that the gunner can fire his weapon without putting his head in jeopardy. Supporting these mute but eloquent relics are upwards of four hundred actual battle front photographs, some of very large size.

The desperate character of the fighting above the earth is depicted in a vivid way by a close examination of the captured Albatross biplane, whose canvas wings are perforated in hundreds of places, and whose control wires are all wrenched and twisted into tangled masses.

The big Zeppelin bombs, the aerial bombs with fluted rudders, tell their grim story of death to women and children. The whole atmosphere of this hallowed collection of battle scared relics is replete of deeds of valor, of sacrifice, and the determination to put out of the way for all time, this damnable Prussian monster whose poisonous tentacles must be loosed once and for all.

EVERYONE MUST HELP.

Wars cannot be fought without money, and upon the Treasury centers every financial demand upon the Nation.

The rich of this country cannot alone meet the needs of the Nation; the men of the country cannot do it alone; the women of the country cannot do it alone; but all of us, the people of the United States, disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right and determining to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

W. G. McADOO,
Secretary of the Treasury.
